

Bugs with Benefits

2014 UNIBUG Forum

Join UNIBUG – the User Network for Insect Biology in the Urban Garden – at a free forum where you'll learn about the ecology of urban gardens, the beneficial insects that eat pests, the importance of pollinators, and how to build your very own bee house.

Saturday March 29, 10am-noon

Pre-event reception and refreshments at 9am

New Westminster Campus

Room 2201, 700 Royal Ave.

1 block from New Westminster SkyTrain Station

GUEST SPEAKER

Dr. Elizabeth Elle

Department of Biological Sciences, SFU

The bees' needs: Why pollinators are in trouble and how gardens contribute to their conservation? In this presentation, you'll learn about the amazing diversity of wild pollinators, how critical they are for plant reproduction and what you can do to reduce their risk of extinction.
